I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have used compounded medication for the last six years and it has made a significant difference in the quality of my health and life. My compounded prescription relieves my symptoms and makes it possible for me to live a more normal life, throughout the month. Some of my symptoms were previously debilitating such as depression, sleeplessness, & anxiety. I am concerned if you limit all specialized pharmacies, it will compromise my quality of life by restricting my ability to obtain medication my doctor has prescribed, which I need. The services specialty pharmacies provide to me & my doctor, are not available from commercial pharmaceutical manufacturers, or most local pharmacies.
